Overall message to citizens:

Your city. Your plan.

Working with you to find the best places for new homes, jobs, retail and greenspace.

6 Best City Priorities, underpinned and delivered by the SAP with people and places at its heart

Team working, Leadership & effective Project Management

1 Council

SAPTeam Leeds led by Policy & Plans Group (Planning & Sustainable Development, City Development), with key support from Legal services:

- Complementary technical skills and range of specialisms across over 12 Council services (working in a joined up manner including with health, education and transport colleagues).
- Integrated and 'can do' problem solving approach which addressed two "showstopping" external events and kept project on track
- Shared objectives, focus and commitment to deliver for Leeds
- Timely and effective communication
- Excellent team spirit, energy and resilience
- Innovative use of ICT and GIS solutions to inform and consult
- Supportive political steerage across a lengthy and locally charged process
